**MAGISTRATE'S PAY.**—In small communities where Justices of the Peace have to depend on fees alone the office is a very poor one, so much so that but few seek the position, hence it is no more than proper that they should be paid so much per folio for taking testimony in criminal cases. It is an outrage to expect that a competent man should be set in a magistrate's court for a pittance which a day laborer would laugh at, therefore it is to be hoped the present Legislature will make provision for payment to Justices of the Peace for taking testimony, either by the folio or as a monthly stipend. —Tribune.

## A Pleasant Resort.

Members and Attaches of the Legislature and the other Winter sojourners at the Capital, can find no pleasanter place of resort for reading the latest papers and magazines and selecting popular books than at Cagwin and Noteware's corner store—diagonally opposite the B. & E. Bank on Carson street. Here can always be found a variety of plain and fancy stationery and general office supplies; besides an endless variety of novelties.

There is a glittering display of jewelry, diamonds & ladies' watches in the show window of the Rinckel building. The designs are of the latest, and will be sold during holidays, at prices which can not be duplicated in the State.

## A TELL TALE WRAPPER.

Proof Positive of the Louisiana Company's Interference in Nevada Politics.

The following appeared in last evening's Tribune:

A very bad case of "stop thief" is the cry that the Louisiana Lottery Company is using money to defeat "our pet scheme." The gentlemen who propose to monopolize the Lottery business of this State, as well as its politics, are using money and Lottery stock freely to induce influential men to help them in their effort to fill their pockets at the expense of the balance of the people. Not a dollar of the money being used for the purpose of getting ballots or circulars printed, or for any other purpose, in opposition to this scheme can be traced to the Louisiana Lottery Company, and these immoderate gentlemen know it.

The Appeal thinks it can trace the work of the Louisiana company right into the town of Carson.

The assertion made some days ago in the Appeal that the agents of the Louisiana Lottery Company were taking a hand in the fight on the 22nd amendment has been laughed at by many of the men who have been taking such an active interest in the fight against the amendment and who have tried hard to turn the public mind against such an impression.

The Appeal, beside having been itself approached by one of these agents has evidence in its possession which removes all doubt which may have ever existed on the subject.

A few days ago, there was brought to this office, two Tribunes dated January 31 and February 1. They were enclosed in a paper wrapper, and printed on the wrapper was the address:

M. A. DAUPHIN,

NEW ORLEANS,

La.

If the anti-lottery people will look at the ticket they purchase every month from New Orleans they will find the name of M. A. Dauphin on the ticket as general manager of the New Orleans Lottery Company.

This wrapper was opened in the presence of leading business men of this city and the two copies of the Nevada Tribune, found inside contained articles denouncing the proposed Nevada Lottery scheme and marked with ink. Inside the wrapper were the words:

Please send one extra marked paper in this wrapper.

The significant thing in connection with this is the fact that anti-lottery newspapers are being sent from this city to New Orleans.

The type in which the directions were printed cannot be duplicated in this county. Either a private agent of the company in this city is sending to New Orleans evidence of work being done, or else the newspapers which are fighting the Louisiana Company are well supplied with blanks to send to the Louisiana Company, evidence that their part of the contract is being kept.

Newspapers sending matter through the mails are not required to affix a stamp; the papers being weighed and the bill for postage rendered every month.

This wrapper had no stamp on it. It can be seen at this office by anybody who desires to see it.

—Down in Reno a musical concert takes place this week and there is to be a large picture to be given away to the person, securing the disposal of the prize by a lottery drawing after the performance is over. Each one buying a ticket at the door has a chance in the picture. Wonder what Bob Fulton and others will say to this.

—Lieutenant Governor Davis who is sick with asthma of the heart in San Francisco has not yet gone to the Southern part of California as was reported, but is still there where he will have to remain for some time.

—The G. A. R. Camp Fire of the Custer Post, will take place on Tuesday evening, and a valuable and elegant prize will be given to the person drawing the winning number. More lottery!

## THAT ANONYMOUS CIRCULAR.

The Comstock Miner Pays its Respects to it.

The following from the Comstock Miner is well worth reading, and will give some of the anti-lottery people ample food for reflection:

We have been handed a printed circular—sent in, we believe, from Mason Valley—with the flaring title of "Do we want a Legalized Lottery? If Not, Why Not?"

This text is made the theme of a discourse against the morality of all enterprises of hazard, whether of stock dealing, draw poker or a simple game of seven up for a schooner of beer, with especial condemnation of legalized lotteries. The object of the circular is to array the people of the State against the proposed Lottery Amendment, to the Constitution, to be submitted with other amendments, on the 11th, of this month, and the authors of it are the Louisiana Lottery Co., and its San Francisco back-action, the Little Louisiana Lottery Co. Of this there can be no doubt.

The argument of the circular is pitched to a high key of morality; but this is not the first time that designing rascals have "stolen the livery of heaven to serve the devil in." For months past these companies have drawn between \$25,000 and \$30,000 per month from Nevada in exchange for their tickets, and they do not propose to relinquish without a struggle to local enterprise a field so fruitful to them in the past, and so full of promise for the future.

We understand that should the lottery amendment be accepted, a responsible company of citizens from every county in the State stand prepared to establish a lottery on a scale of unprecedented fairness and liberality, guaranteeing to the public treasury a percentage of profits which would very materially lighten the burden of general taxation, and retain within the State the \$300,000 or \$400,000 of which our people are annually despoiled by associations of whose methods of distribution they have no control, and whose management is open to the grave suspicions of dishonesty, bogus tickets in one of the schemes, at least, have been sold by the thousands in this State, and the large sums drawn compared with the large sum paid in the aggregate monthly by the people of Nevada for tickets has been suspiciously light and unsatisfactory.

Since our people will invest in lottery tickets—since no law can be framed strong enough to prevent them from doing so—we submit that it would be no trespass upon morality to authorize a lottery of our own, where the money invested in tickets would be kept within the State, and our not over abundant revenues would be augmented for the benefit of the taxpayers.

But whatever may be determined in relation to the proposed amendment, no voter should permit himself to be influenced by the circular referred to, or by any other emanating from the outside associations now preying upon the people of the State. We feel abundantly capable of managing our own affairs morally and financially, and respectfully suggest to the managers and ticket agents of the Big and Little Louisiana Lotteries that their advice in relation to the authorization of a lottery in Nevada, which would interfere somewhat with their crooked proceedings, on this side of the mountains, will be duly invoked should the emergency ever require it.
